EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. Petruzzelli on 4/12/2004.

The application has been amended as follows:

IN THE CLAIM

Re. claim 1: After the phrase "of the substrate" as recited in line 7, insert --with adhesive material--.

2. The following is an examiner's statement of reasons for allowance: The prior art of record fails to disclose the claimed invention such as bonding the first part of the magnetic body to the first major surface of the substrate with adhesive material for securing the first part to the substrate so that the first part overlies the aperture and a portion of the first part is exposed through the aperture. It is not obvious taken alone or in combination of other references fairly to suggest the claimed invention.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

3. Claims 1-10 are allowed.
